Dear Mr. DeSilva,

Dear Mr. DeSilva, I am writing in response to your request for documentation regarding your accepted submission, Paper ID: 3684, about Temporal Derivative Soft Sensing and Reconstructing Solar Radiation and Heat Flux using Common Environmental Sensors. regarding your specific inquiry about the demographics and backgrounds of the authors contributing to the ESCI 2026 program, I can provide a general overview based on our submission data. While we do not track or verify personal metrics such as age, I can confirm that the accepted authors for this year's conference fall into three primary categories as PhDs and Candidates , Graduate and Undergraduates and Industry Professionals of international companies The academic cohort represents a diverse range of institutions, including VIT Bhopal, IIT Delhi, various institutes in Mumbai, and numerous other Indian state and private universities.

Regarding the conference schedule, please ensure you are prepared for your session. While physical participation is encouraged, if you are unable to travel to the venue, attending and presenting online is a must to ensure your paper is included in the conference proceedings. If you fore see that you be unable to attend or present in either format, please contact the Registration Committee shortly to update you. Here are the details

Mrs. S.S. Landge

Dr. Ashpana D. Shiralkar
Associate Professor ,
Electrical Engineering Department

AISSMS
INSTITUTE OF INFORMATION TECHNOLOGY
ADDING VALUE TO ENGINEERING

A: Kennedy Road, Near RTO, Pune - 411001, T: +91 (020) 26057983, 26057636 [Ext : 2201],
Vision: To be known for imparting quality education in the field of electrical engineering and

preparing competent professionals with high human values to serve the society.

Mission:

To train the graduates with the latest technologies through industry institute interactions

and experiential teaching learning practices to meet the emerging global challenges.

To enhance engineering skills, employability skills, and research through professional

activities.

To develop globally competent electrical engineers with professional ethics and

commitment to society.
