I’m honored to have been accepted to IEEE SouthEastCon 2026, organized by the Institute of Electrical and Electronics Engineers, New York, NY. This year’s conference marks its 61st anniversary, making it a particularly meaningful event to be part of. As a teenage participant, I’m grateful for the opportunity to engage with the community and share my work. I also look forward to highlighting the consortium I’m currently working with, FIA Operating Systems, and exploring opportunities for collaboration and knowledge exchange. I am willing to participate in-person, otherwise, on-line.

[SoutheastCon 2026]: Notification on your paper #1571241750 ('Temporal Derivative Soft-Sensing and Reconstructing Solar Radiation and Heat Flux from Common Environmental Sensors')

1 message

SoutheastCon 2026 <southeastcon2026-chairs@edas.info> Wed, Jan 28, 2026 at 10:09 PM
To: Neksha DeSilva <nekshavs@gmail.com>

Dear Mr. Neksha DeSilva and Co-authors,

Congratulations! We are pleased to inform you that your paper #1571241750 ('Temporal Derivative Soft-Sensing and Reconstructing Solar Radiation and Heat Flux from Common Environmental Sensors') has been **accepted** for presentation at the SoutheastCon 2026 under the Track 5 - Microelectronics, Devices and Sensors track.

Apologies if you receive multiple copies of this email.

The specific session where this paper will be presented will be assigned in the last week of February 2026.

Registration (required for publication in IEEE Xplore)

To remain eligible for publication in the IEEE Xplore Digital Library, **at least one author must register** under either "Author IEEE member" or "Author Non-Member" and present the paper either virtually or in-person.

- **Authors registration deadline:** February 11, 2026, at 11:59 p.m. US Central Time
- **Registration link:** https://web.cvent.com/event/6f7f9e97-0790-4c29-b0bd-352d8d3930f7/summary
- **Registration information:** https://ieeesoutheastcon.org/registration
- **Registration support:** register-southeastcon2026@ieee.org

Paper coverage per registration: One author registration covers one (1) paper ($750 for IEEE member or $1000 for IEEE non-member). A presenter may cover up to two (2) additional papers (maximum three (3) papers total per presenter) for an additional $250 per paper, regardless of IEEE membership. Authors of regular papers exceeding six pages may purchase extra pages for a fee of $50.00 per page up to two additional pages. The maximum regular paper length is eight pages. Authors of short papers (Track-Poster Presentation) exceeding 2 pages may purchase one additional page for a fee of $50.00.

Additional co-authors who wish to attend may register at the conference attendee rate ($500), which includes access to the full conference and meals.

Note: *The advance/early bird registration rate is valid only until February 11th, 2026. If you already registered, please disregard this reminder.*

Visa invitation letter: If you require a visa invitation letter for travel to the U.S., please email syed.tamseel@ieee.org with your request.

Camera-ready manuscript (required)

Please address reviewers' feedback when preparing the camera-ready manuscript, and ensure all author names and affiliations are included.

- **Camera-ready submission opens:** January 28, 2026
- **Camera-ready deadline:** February 10, 2026.

Formatting and compliance:

- **Use IEEE conference templates:** https://www.ieee.org/conferences/publishing/templates
- **Camera-ready PDFs must pass PDF eXpres prior to upload to EDAS:** https://ieeesoutheastcon.org/camera-ready-instructions/
- **The conference ID (PDF express):** 63549X

- For pdfXpress technical issues, please contact PDFSupport@ieee.org (please include your error message/screenshot). The conference committee may not be able to troubleshoot PDF eXpress issues directly.

You will also be required to complete the **IEEE Copyright Transfer Form** on EDAS.

A PowerPoint presentation template will be provided later.

Venue/Travel

IEEE SoutheastCon 2026 will be held at the Von Braun Center and the Embassy Suites Huntsville. Discounted hotel booking information is available here: https://ieeesoutheastcon.org/hotel/.

Note: *The rooms are booking quickly, and the discounted rate is only available until February 11th, 2026.*

Reviewer comments

The reviews are below or can be found at 1571241750.

Review 1

Comments: Comments to authors? (the comments will be visible by author)

This is an excellent paper that provides a high-fidelity solution for a known problem in distributed sensing. It is well-validated against meteorological standards with an R^{2} > 0.9$.

Suggested Minor Revision (Optional / For Consideration):

The author mentions that the system requires dry conditions to function and that rain causes a wet bulb effect. A brief discussion on how the system might automatically detect these rain lockout periods would add even more practical value.

Review 2

Comments: Comments to authors? (the comments will be visible by author)

This work outlines a soft-sensing techniques based on differential temporal derivatives and provides alternatives. The authors do a good job of providing theory that relates to their physics-based model and have a goal of low-cost and standardized estimation of radiative energy transfer for environmental sensors. The paper also discusses noise reduction signal processing techniques and validates their approach against government data sets.

The paper has great figures, reasonably ties to theory, and provides experimental data. I recommend this work for publication with minor revision.

1. Some figures contain text smaller than the IEEE guidance. For example, text in Figure 5 should be increased.
2. Please, double check that the bolding, etc. matches IEEE guidance for conference publication.
3. Optional: The manuscript may benefit from a quantitative comparison from other experiments and demonstrations if possible. Are the authors able to provide a short comparison to add context for these contributions?

Congratulations again - we look forward to seeing you at IEEE SoutheastCon 2026, either virtually or in person.

Regards,
Dr. Aleksandar Milenkovic (TPC Co-Chair)
Dr. Ahmed Elsayed (TPC Co-Chair)
